Rates in Cuban pesos (CUP) applicable to legal entities, branches, embassies and international organizations.

- Dedicated Server or Physical Server Rental Service

Marketing conditions:

1. The dedicated server is a device belonging to the data center for the exclusive use of the customer who hires it, a monthly rental fee for the entire server must be paid by it;
2. The technology and configuration of the physical server depends on the availability and the equipment costs at the time of contracting, if the customer needs additional storage resources, it will be charged according to the Rental Rates for additional storage capacity.
3. The access link to the dedicated server is independently contracted.
